Content

Session 1

Global Healthcare Challenges and Opportunities: The Role of Advanced Technology, Presented by Telemedicine and Advanced Technology Research Center (TATRC), USA 2

Global Healthcare Challenges and Opportunities: The Role of Advanced Technology G. Mogel, TATRC (USA) 2

HealthGrid: Grid technologies for Telemedicine M. E. Kratz (USA) 3

From the Front Lines: Innovating Mobile Health Care Solutions Bridging the Technology and Clinical Gap T. Morris (USA) 5

Telemedicine Standardization -- The Need For An Operational Approach D. M. Lam (USA) 6

The United States Army Telemedicine Program – General Overview and Current Status in Southwest Asia K. Poropatich (USA) 9

Virtual Reality for Behavioral Healthcare B. K. Wiederhold (USA) 13

Integrated environmental monitoring and public health in Vietnam Kevin Montgomery (USA) 17

TATRC International Activities J-L. Belard (USA) 24

Session 2

Homecare and Health Management 28

Doc@hand, an innovative web based - ontology driven information access platform for healthcare professionals L. Sammartino, A. Conconi, G. Randall (Italy, UK) 29

Electronic Monitoring of Dosing Histories Allows Real Time Detection of Poor Adherers and Offers the Bases for a Successful Intervention B. Vrijens, W. De Cian, J. Urquhart (Belgium, USA) 33

The Relevance of User Evaluation Research for e-Health Application in the Homecare Setting S. De Rouck, M. Leys (Belgium) 36

NFC – The Intuitive Link between People and e-Health G. Schreier, A. Kollmann, J. Morak, P. Kastner (Austria) 42

Information Center for Persons with Disabilities E. Jitaru, A. Alexandru, I. Moisil, E. Tudora (Romania) 46

eHealth and Digital Medicine in the Virtual Hospital of the Future G. Graschew, T.A. Roelofs, S. Rakowsky, P.M. Schlag (Germany) 49

Telecare in Singapore Health Service F. S. Lim, Y. S. Tan, D. Kanagalingam, M. Foo, A. Ong (Singapore) 53
A Home Care System Used in Post-Operative Patient Management D. Guerdal, A. Leis, I. Chouvarda, I. Lekka, M. Nerlich, N. Maglaveras (Germany) 59

A Programmable Multimedia Homecare Assistant S. Ionita, M. M. Ionita (Romania) 60

Automatic Fall Detection and Activity Monitoring for Elderly G. Perolle, P. Fraisse, M. Mavros , I. Etxeberria (Spain, France, Greece) 65

Home Based Integrated Care in Patients with Chronic Respiratory Failure with the Use of E-Health Services Th. Vontetsianos, P. Giovas, A. Rigopoulou et.al. (Greece) 71

Luxembourg Heart Failure project (LuHF) Henri Tudor (Luxembourg) 73

Telecare – Practical Experiences with Video Communication in Homecare T. Pfeller, E. Huber, B. van Venrooij (Austria, The Netherlands) 74

A Multichannel Communication Platform for Healthcare: Case Studies T. Jokinen (Finland) 77

A Semantic-Based Healthcare Information Infrastructure Able to Integrate Medical Information and eHealth Services E. Dellavalle, V. Perdoni, L. Gadda (Italy) 78

Telehomecare in PALLIATION Study (TIPS): Real Time Videoconferencing Support for End of Life Care T. Abernathy, R. Cohen, C. Goldsmith et al (A. MacLennan) (Canada) 83

Session 3

Healthcare Challenges 84

DOKTER.NL Digital Consultation W. J. P. M. Calis, P. H. M. Mulder (The Netherlands) 85

PARKSERVICE: Home Telemedicine and Walking Aid for Parkinson’s Disease U. Delprato, R. Greenlaw, M. Cristaldi et al. (Italy, UK, Germany) 87

Telemedicine against Bioterrorism L. Baramidze, E. Kldiashvili, K. Gvetadze (Georgia) 90

Health Gateway – A Complete Solution for Wireless Data Transfer and Follow up of Patient Data A. Holopainen, F. Galbiati, K. Voutilainen (Finland) 93

Session 4

Tele-Education: A Must for Success 98

Tele-Education in Russia: Support Reform and Development of Health Delivery System O. Atkov, V. Stolyar, N. Chueva et al. (Russia) 99

Ophthalmic Post-Graduate Teaching in Ireland: The Experience using Video-Conferencing and Collaborative Technologies M. Healy, W. Power, D. Curtain, P. Mullaney (Ireland) 100

Session 5

IT Solutions in Healthcare

Visual Communication for Healthcare C. Gualano (Norway) 125

Reinforcement of Trans-theoretical Model on Exercise Behavior with Radio Frequency Identification Technology J. L. Cheng, H. W. Liu, W. A. Hsieh, S. F. Huang (Taiwan) 128

Progress of e-Health in Australia: HealthConnect S. Kolachalam (Italy) 132

SSM Literature Review S. Kolachalam (Italy) 139

Rural Telemedicine: Lessons from Alaska for Developing Regions H. E. Hudson (USA) 144

Purchasing Computer Program (Application) for Health R. Stevanovic, I. Klapan, A. Stanic et.al. (Croatia) 149

Progress of e-Health in Australia: OACIS (The Open Architecture Clinical Information System) S. Kolachalam (Italy) 150

HEAL Framework: A Variation of SSM S. Kolachalam (Italy) 156

Healthcare and Nutrition: Big Mother is Watching You F. Buccolini (Italy) 160

An Advanced Connectivity for Distributed and Heterogeneous Clinical Databases I. Bakettas, C. Deimente, L. Gortzis, G. Nikiforidis (Greece) 161

CARAMEL: A Plugin-Architecture for the Secure Integration of Standards in Medical Information Systems S. Brüggemann, M. Rohde (Germany) 165

Systematic Thinking in Multi-Agent System Coordination – Applied in Diabetic Health Care P. Zhang, G. Bai (Sweden) 171

Mobile Phone Videoconferencing as a Tool for Rapid First Look Diagnosis W. Glinkowski et al. (Poland) 182
Session 6

Community eHealth and Disease Surveillance 183

Extracting, Storing and Viewing the Data from DICOM Files L. Stanescu, D. Burdescu, A. Ion et al. (Romania) 184

A Telemedicine Framework for Collaborative Pacemakers Follow-up A. Kollmann, D. Hayn, P. Kastner et al. (Austria, Spain) 190

Classification for Methods of Telemedicine Efficiency Investigations A. V. Vladzymyrskyy (Ukraine) 194

Session 7

Telecardiology 197

Transtelephonic ECG, different approaches: The Aerotel experience R. Schliesser (Israel) 198

A Wireless PPG Sensor Applied over the Radial Artery – A Pilot Study J. Pettersson, L. G. Lindberg (Sweden) 199

A Web-Based Data Bank of Heart Rate and Stroke Volume Recordings during Sleep G. Varoneckas, A. Martinkėnas, A. Podlipskyte et al. (Lithuania) 203

Distance Cardiology and Remote Psychology Care: Is this the Successful Formula M. Jordanova, T. Dachev (Bulgaria) 204

Session 8

eHealth in Developing Countries: The Future of Healthcare 207

Computer Skills and Digital Divide for HIV/AIDS Doctors in Low Resource Settings M. Zolfo, L. Lynen, V. Renggli et al. (Belgium, Peru) 208

eHealth Program in Georgia E. T. Kldiashvili (Georgia) 210

Telemedicine as a New Tool in Emergency Medical System of Uzbekistan B. Rahimov, A. Khadjibaev (Uzbekistan) 213

Role of Telemedicine in Delivering Healthcare in Remote Areas of a Developing Country Z. Ahmed (Pakistan) 214

e-Health as a Tool to Improve Access to Health-Care Services in Developing Countries L. Androuchko, V. Androuchko (Switzerland) 217

The Background on the Mobile Telemedicine Units Application in Telemedicine Services and Networks within the Outlying Regions V. A. Drogovoz, V. M. Levanov (Russia) 221
Design of Bluetooth Based Low Cost Cardiac Telemonitoring System N. P. Chowdhry, A. A. Memoni, B. S. Chowdhry, A. Q. Rjaput (Pakistan) 222

Exploring Natural Progression of Health-Related Uses of Mobile Phones: A Egyptian Case Study P. Mechael (UK) 225

A Comparative Overview of e-Health Development in Developing and Developed Countries P. Ray, L. Androuchko, V. Androuchko (Australia, Switzerland) 231

Establishment and Development of an Integral Information System: Four Croatian Innovations R. Stevanovic, A. Stanic, I. Klapan et al. (Croatia) 237

Building Clinical Capacity in Africa: The Search for Cost Effective, Scalable Solutions L. Firth (Australia) 238

On the Horns of a Dilemma: Telemedicine for Africa? M. Mars (South Africa) 242

Session 9

International Ubiquitous Healthcare (u-Health) Initiative 245

International Initiative for Ubiquitous Healthcare (U-Health) 246

Session 10

Electronic Health Records and Data Transmission 248

Electronic Health Records in Continuous Shared Dental Care T. Dostalova, P. Hanzlicek, Z. Teuberova et al. (Czech Republic) 249

Implementation of Computerized Information Systems in Oncology Unit T. Botsis, P. Paraskeva, K. N. Syrigos (Greece) 250

Image Shark – PACS-CBIR Integrated System with Interactive Image Transmission using JPEG2000 P. Boninski, A. Przelaskowski, P. Halasa (Poland) 255

Seamlessly and Securely Sharing Health Care Data with Triple Space Communication E. Dellavalle, D. Cerri, D. Cerizza, A. Ghioni (Italy) 260

Congestive Heart Failure (CHF) and Virtual Hypertension Clinic (VHC) Uwe Korth, H. Schaps (Germany) 264

Session 11

International Telemedicine and eHealth Initiatives and Developments Presented by the International Society for Telemedicine & eHealth (ISfTeH) 265

P.O.C.A.H.O.N.T.A.S (Point Of CAre Home Networked Tele ASsistance) An example of hospitalization in the territory A. Giannone, V. La Bella, F. Paone (Italy) 266
Session 12

**Space technology as a tool for delivery e-health** Under coordination of the United Nations Office for Outer Space Affairs (UNOOSA)

- Satellite-based health early warning for environmental risks M. del Mar Lleo (Italy) 296
- Strategy towards Sustainable Services in Tele-health and Tele-epidemiology M. Lafaye, A. Guell (France) 298

**National Control Program of Chagas Disease: Spatial Identification of infested houses notified by communities under entomological surveillance using GPS technology to monitor and define areas under risk of re–infestation G. Russomando (Paraguay) 302

- Development of a Portable Telemedicine Station F. D. Balducci (Argentina) 305
- Telemedicine Applications in Mobile Surgery E. B. Rodas, F. Mora., Tamariz, A. Vicuna, R. C. Merrell, E. Rodas (Ecuador, USA) 307
- River Health: Description of an Integral Healthcare Program in a Remote River Basin of Ecuador E. B. Rodas, F. Mora, F. Tamariz, A. Vicuña, R. C. Merrell, E. Rodas (USA, Ecuador) 311

Posters:
The National Tele-health Program in Mexico Amanda Gomez, Marcela Ramirez, A. Villagomez, E. Garcia (Mexico) 314

Cube-Sat solution proposal for the lack of a permanent satellite channel for telemedicine purposes in the American Region L. Aparicio, J. C. Narvaez (Colombia) 318

Project of Social Connectivity for the formation and development of local capacities by more and better health in countryside and small localities of the Argentine territory under communication platforms (the SAT/WiMAN-WiLAN/PC) M. Guillaumet, M. Petrich (Argentina) 322

Evaluation of video educative material for patients: a pilot scheme in 12 public health facilities of South Africa M. Kachienga, S. Wynchank, M. Moretlo, S. Olorunju (South Africa) 325

MEDES: Application of satellites in ehealth M. Bernat, R. Rettig, L. Braak (France) 326

Space technology for telemedicine in extreme environments and disaster response S. W. Cone, A. Rafiq, R. S. Hummel, R. C. Merrell (USA) 327

Integral evaluation of malaria in Tuntunani (Bolivia) at 3800 m o/s A. E. Marilyn, A. James, R. Jaime, L. Edwin, A. Ivar, C. Rimort, H. Kjetil (Bolivia) 330

The remote sensing perspective to focus landscape ecology, the anthropogenic action and the malaria disease L. Delgado, S. Ramos (Venezuela) 332

Remote sensing to Predict and Alert on the Risk of Waterborne Disease Outbreaks C. Rodriguez, M. del Mar Lleó, C. Haag (Chile, Italy) 340

Remote sensing-GIS to predict on the risk of eutrophycation in reservoirs C. Rodriguez, M. Bonansea, F. Bonatto, V. Reynoso, C. Prosperi, M. Mancini, C. Ledesma (Argentina) 343

Satellite imaging applied to epidemiology: the experience of the Gulich Institute in Argentina C. M. Scavuzzo, M. A. Lamfri, C. Rotela, X. Porcasi, E. Estallo (Argentina) 346

Session 13

Making Better Healthcare Service Best: Healthcare Challenges 351

Towards a Global e-Health Framework for the Support of Pandemic Control S. Hinske, P. Ray (Germany, Australia) 352

Nine-Years Experience in Telemedicine for Rural and Remote Districts of Russia: From Teleconsultations to e-Diagnostic Centers O. Atkov, V. Stolyar, A. Selkov (Russia) 353

Telemedicine Segment of the Croatian e-Health System M. Novosel, I. Klapan, R. Stevanović, A. Pavelin, N. Klapan, M. Katic (Croatia) 358

Session 14

How to Harness the Power of Internet for Competitive Health Care 359

A Global, Low Operational Cost and Zero Infrastructure Investment, Store and Forward Telemedicine Platform P. D. F. A. Fullarton (South Korea) 360
Late Submissions

A Web-Based Data Bank of Heart Rate and Stroke Volume Recordings during Sleep G. Varoneckas, A. Marktinkenas, A. Podlipskyte, A. Varoneckas, A. Zilinskas (Lithuania) 371

The Luxembourg Heart Failure Project: A New Concept of Tele-Home Monitoring for Patients Suffering from Congestive Heart Failure (CHF) N. Rosch, D. Wagner, P. Harpes 376
