Med-e-Tel 2011

Electronic Proceedings

of

The International eHealth, Telemedicine and Health
ICT Forum for Educational, Networking and Business

Editors
Malina Jordanova, Frank Lievens

April 6-8, 2011
Luxembourg, G. D. of Luxembourg
Preface

Dear Readers,

We are proud to present the Electronic Proceedings of Med-e-Tel 2011.

The 211 papers and abstracts from 58 countries, included in the Proceedings, were compiled for and presented at the Med-e-Tel 2011 (The International eHealth, Telemedicine and Health ICT Forum for Educational, Networking and Business, www.medetel.eu). The event was held at Luxexpo, Luxembourg, Grand Duchy of Luxembourg April 6-8, 2011.

Med-e-Tel 2011 brought together participants from over 60 countries, networking among themselves and with representatives of international organizations, companies and project teams.

Please, when reading, be so kind and have in mind that:

• The sessions are listed in the order of their scheduling in the Preliminary Program on March 12th, 2011;
• Papers within the sessions are arranged in an alphabetical order of their titles;
• In the content, after the title of papers and abstracts maximum of 3 to 4 co-authors are listed, while the remaining co-authors are marked as “et al”;
• Last minute changes in the program, especially re-scheduling of presentations as a result of speakers’ requests, are not depicted in the organization of the Proceedings;
• Only texts that were submitted on time and were prepared according to the rules are included in the Proceedings;

The Proceedings is a collective experience of colleagues from different continents and different cultures.

The aim of the this Proceedings is to permit those who are planning to introduce eHealth / Telemedicine applications in their regions or countries to rely on experiences of others in order to avoid mistakes and to reduce potential problems. We hope that anyone involved in eHealth/Telemedicine will find these Proceedings extremely interesting.

With the publication of this Electronic Proceedings as well as with the third book from the series “Global Telemedicine and eHealth Updates:
Knowledge Resources”, Med-e-Tel strengthens its position as a widely recognized International Educational, Networking and Business Forum for eHealth, Telemedicine and Health ICT.

Enjoy your reading!

Editors
Malina Jordanova, MD, PhD
Educational Program Coordinator, Med-e-Tel
Space and Solar-Terrestrial Research Institute, Bulgarian Academy of Sciences
Bulgaria

Frank Lievens
Director, Med-e-Tel
Board Member, Secretary and Treasurer of International Society for Telemedicine & eHealth (ISfTeH)
Belgium & Switzerland
Editors gratefully acknowledge the work of all reviewers that dedicated lots of efforts, time and high expertise, and with their valuable advises, supported both authors and editors in the process of selecting, correcting and preparing for publication all papers and abstracts included in this proceedings.
Content

Preface ii

Opening Session 1

Tele-Nursing and Its Development Worldwide 2
D. C. Benton

The Payers as Drivers for Organisational Innovation in Health Care 3
J. Van Emelen

United Nations Office for Outer Space Affairs Programme on “Satellite Applications to Health” 6
V. Kotelnikov

Evidence of Telehealth Outcomes 8

BELGIUM-HF (Better Efficacy in Lowering Events by General practitioner’s Intervention Using Remote Monitoring in Heart Failure): Solid Evidences for a Need of Telemonitoring Vital Signs in HF Patients 9
J. Col, A. Robert, S. Vercauteren et al.

Clinical ‘Calibration’ of Home Monitoring Devices for Tele-Health: A Component of the HeartCycle Programme 12
R. Antony, A. Torabi, J. Weston et al.

Does A Mandatory Telemedicine Call Prior To Visiting A Physician Reduces Costs Or Simply Attract Good Risks? 16
C. Grandchamp, L. Gardiol

Home Patient Monitoring Program Clinical and Outcomes Evidence and Future Prospects 17
M. VanderWerf

Home-Based Telemanagement Programme in Chronic Heart Failure: An 8-Year Single-Centre Experience 18
S. Scalvini, E. Zanelli, P. Bernocchi et al.

Market Study of Innovative Services in Health Care: Towards A Better Understanding of Medical Staff Acceptance in Two Case Studies 20
P. A. Nuq

mHealth for Diabetes Patients - Proof of Concept based on Keep In Touch (KIT) – Technology 26
G. Schreier, P. Kastner, M. Lischnig et al.

Need For Integrated Care: Solutions That Transform Care Delivery In The Community 28
Telemonitoring for Screening and Surveillance

Ambulance Biosignals Telemonitoring: 2.75G versus 3G in Thailand
T. Kanchanarin, S. Chitpatima, P. Pokpong, C. Kwanpichit

Body Worn Sensors
M. VanderWerf

Housing Technical Solutions of Localization at Home for the Prevention of Falls of Elderly People
M. Jublot, M. Rondel, A. Zefner et al.

Intelligent Telehealth Monitoring using High Speed: Broadband Networks at MCMC-MMU Digital Home Lab
Y. C. Chang, M. Ramalingam

Is It Feasible Or Not To Offer Telemonitoring Service in Switzerland?
L. Androuchko, V. Androuchko, C. Mohun

Patient Safety Devices, Security of Premises and Attendance Management of Employees for a Therapeutic Day Care Centre
G. Latron, A. Bernard, M. Gache et al.

Protéus - A Scientific Experimentation to Determine If Virtual Screening Is Effective
R. Moriondo, D. Dettori

Telemonitoring for Assisted Living Residences: The Medical Specialists’ View
S. Alizadeh, S.C.J Bakkes, M. Kanis et al.

Tele-Monitoring for Neurological Patients: Lessons Learned
I. Kósa, B. Végső, I. Vassányi et al.
Telemonitoring for Screening and Surveillance of Type 2 Diabetes and Related Conditions on Saipem’s Offshore Vessel
P. Ponattil, F. Mika, D. Vitella et al.

G. Kiel

Mobile eHealth Solutions

An Expected New Guide to Mobile Telemedicine Tools
A. Petitet

Applicability of Smart Phones in Telemedicine
I. Evgeniev, V. Gueorguiev, V. Trifonov

Deployment of a Mobile Application for Managing Our State of Health: The E-Dietician
K. Revett, A-B. Salem

Impact of Mobile/Wireless e-Health on Community, Maternal and Child Health Care
A. Mutungi, C. Lehmann, P. Ndege et al.

Mobile Media Rich Communication Systems for Emergency Telemedicine
A. Panfilov, Valery Stolyar

Mobile Psycho-Technology: Voice Messages by Mobile Phone for Emotional Regulation in Spanish Teenagers
M. Quintana, M. E. Rincón, S. López et al.

Remote Healthcare in Rural Areas: The New Health Delivery Channel - From Theory to Practice
R. Schliesser

Technical Solutions for Adaptation of Housing for Elderly Persons with Physical Disabilities and Cognitive Impairment
A. Cros, A. Desbordes, A. Simonin et al.

IWEEE: International Workshop on eHealth in Emerging Economies

Android/OpenMRS: Integrating EMRS and Decision Logic Functionality within Mobile Applications for Healthcare Workers
T. Routen

Improving Health Technology Management through an Internet Based Mobile Wireless Health Care Portal with a Web Questionnaire
Processing System

V. Aghasonu, A. Ogini, U. Nnodum

Global eHealth Strategy Symposium - Policy Dialogue on Global eHealth 127

Demonstrating the Potential Role of Information and Communications Technologies in Improving Management and Use of Antiretroviral Medicines in Resource Limited Settings
S. A. Chuchu 128

Health Help Center (HHC) - 24x7 Accesses to Healthcare Services in Bhutan Though a Toll Free Number 112
G. Tshering 133

Millennia 2015 ”Women and eHealth”: Empowering Women, Improving Health and Promoting Digital Solidarity to Contribute to MDGs 4 & 5 Achievement by 2015
M-A. Delahaut, V. I. Thouvenot 135

Tele-Safe Motherhood Pilot Project in Five Villages of Rolpa District, Nepal
S. Dahal 138

VOICES Project
R. Anki 139

Cost Effectiveness of Telehealth Solutions 141

A Business Case For European Early Genetic Testing Using an Adaptive Knowledge Platform in Translation Medicine
C. Huttin, M. Liebman 142

A Framework for the Assessment of Teleradiology in South Africa: An Eastern Cape Case Study
C. Haumann, L. van Dyk2, J. B. Fortuin 144

A Multi-Dimensional Visual Map for the Measurement and Comparison of Telemedicine Systems
L. van Dyk, J. Fortuin, A. J. Van Zyl 149

An Economic Framework for the Use of Telehealth Systems in the Diagnosis and Treatment of Autism Spectrum Disorders
F. Angjellari-Dajci, M. E. Stachura, F. Goldstein et al. 154

Analysis of Business Models Use Cases for eHealth in Europe and in Japan
André Schiltz, Patrick Rouille, Philippe Genestier et al. 158

Cost-Benefit Analysis of Tele-speech-language Therapy 163
A. Hosokawa
Cost-Effectiveness of a Telepsychiatric Service Delivery to Autistic Children 168

F. Angjellari-Dajci, F. Goldstein, W.F. Lawless
Early Evaluation of Emergency Telemedicine Consultation Cost in Ubonratchathani Province, Thailand 173

Wimonwan Phonburee, Prapaporn Suwaratchai, Sunee Techatanachai
eHealth Consulting Life Cycle: A Reference Model with Practical Relevance Taking Into Account Service Quality and Cost 177

C. H. Timwo Monthe
Formulation of a Model to Develop Telehealth Actions Allowing Comparison between Countries: The Situation in Latin America 182

A. F. Santos, A. E. Haddad, C. L Wen et al.
Home Automation and ICT Solutions Applied to Furniture to Facilitate Use and Assist People with Reduced Autonomy 186

M. Devilleger, A. Fortin, T. Maitre et al.
Operational Costs in a Large Scale Telehealth Service 191

Success Factors for Telehealth Service Implementation 196

M. B. Alkmim, M. C. Nunes, J. C. Jesus et al.
Technical Impact of eHealth: A Business Case Ensues 201

J. S. Bhatia, Sagri Sharma, Chanpreet Singh
Telehealth in The US Prison System 205

J. Tarrant
The Role of Telepsychiatry in the Rural Settings of SE Cyclades: Providing Cost-Effective Services with a De-Stigmatizing Approach 206

D. Garoni, D. Sarantidis, H. Bekiari, K. Katsadoros
The Virtual Hospital 210

A. S. Jakobsen, K. Phanareth
World Economic Forum Global Health Data Charter: Better Data for Better Health 212

O. Raynaud

Telecardiology 213

A New Strategy to Connect the Cardiologists with Their Patients and To Provide Care in Remote Areas 214

O. Gnoumou, S. Gnoumou
A Novel 12-Lead ECG Telemedicine System Based on Cloud Computing 216

Jui-chien Hsieh, Meng-Wei Hsu, Yi-Hsing Chiu
A Pilot Project on Telecardiology Services by Ministry of Health Malaysia
A. M. Hasmannizar, I. Omar, H. B. Liew, Y. Yahaya
A Telemedicine System to Increase Patient’s Access to Specialized Cardiac Care for Assisting Remote Diagnosis
M. Triegaardt, A. F. Doubell, L. van Dyk
Barriers and Potential Solutions towards the Implementation of a Public Telecardiology Network in Southern Brazil
A. Sparenberg, R. Timm, R. Kalil
Cardiovascular Causes of Death on Board Ships Assisted by Centro Internazionale Radio Medico (CIRM)
I. Grappasonni, F. Petrelli, F. Amenta
Dramatic Improvement of Performance in Remote Cardiology Interpretation Using Centralized Information System
R. Schliesser
eBlood: A Web 2.0 Simulation System for Blood Safety
M. Brigos, J. Fernández, M. Ferruzca et al.
Electronic Patch for Wireless ECG Monitoring: The Experiences of Heart Patients
B. Dinesen, P. Haestrup, M. Jensen et al.
Heartcycle – Innovations in Telehealth
H. Reiter
High Signal Resolution Pulse Wave - Hope for a Fast and Cheap Home Care Monitoring Patients with Cardiac Diseases
R. Krzyminiewski, B. Dobosz, M. Ladzinska et al.
Hypertension Home Telemonitoring
S. Scalvini, P. Bernocchi, F. Rivadossi et al.
Patients’ Satisfaction with Real-Time Echocardiography and Cardiac Consultation at a Distance
M. Olofsson, K. Boman
Web-based Signal Processing Application to Enhance the Abdominal Fetal ECG
Ana-Maria Ilincai, R. Strungaru, W. Wolf et al.

Regional Initiatives in Telemedicine and eHealth

A Common Integrated Telemedicine Platform for Andalusia
B. M. Bastida, M. C. Fernández, C. G. Florido, E. V. Pinilla
AMI-4EUROPE: Advanced, Cross-Disciplinary & Integrated Medical Imaging for all Europeans through a Network of Regional Clusters and Development Strategies
S. Pujol, J. Mayol
Baltic Heart Study as a New Activity of eHealth for Regions Network 272

G. Vanagas
Brainport Health Innovation 277

M. de Pender
Building a Sustainable Regional Economic eHealth Sector in Wales 278

D. V. Ford, S. Lee
Piedmont Region Oncological Screening Center 279

R. Moriondo, D. Dettori
Project 9.4. Reorganization of Welfare Functions and Related Services in Piedmont Decentralized Areas 281

A. Lazzero, G. Griot, S. Momo, M. Lombardo
TELEMACO PROJECT: Telemedicine for the Small Town Halls in Lombardy Region 285

S. Scalvini, P. Zanaboni, P. Bernocchi et al.
Telemedicine Project in the Province of Verbano Cusio Ossola (Piedmont Region) 287

R. Moriondo, F. Bucci
The “Home Automation and Health Pole” of Guéret: An Example of a Regional Initiative for eHealth 289

B. Lapôtre, M. Habrias, E. Morival et al.
The Federal Award-Wining „Health Region of The Future“ Project in the Rhein-Neckar-Region in Germany 293

B. Bergh, J. Szecsenyi, D. Ose, O. Heinze
Welfare Tech Region: Creating Growth through Innovation in the Health Care Sector 294

L. Beck, M. A. Craggs

Virtual Reality, Mental Health, Stress-Related Disorders and Rehabilitation 296

Drug Adherence Data as Input to an ICT-Based System for the Treatment of Depression 297

E. Tousset, P. Cuijpers, M. Hoogendoorn, M. Klein
Drug Adherence Monitoring As Component of ICT-Based Health Systems 299

E. Tousset, P. Cuijpers, M. Klein, M. Hoogendoorn
Help4Mood – Distributed System to Support Treatment of Patients with Major Depression 301

J. C. Castro, J. Benseny, J. M. Colomé, J. Martínez-Miranda
Implementation of Virtual Reality Program “Emotion 1.0” to the Study 308
of Theory of Mind in Children in Primary Education

_J. F. López-Paz, I. A. Caro, E. L. Pérez_

Interreality in the Management and Treatment of Stress-Related Disorders

_B. K. Wiederhold, A. Gaggioli, G. Riva_

Monitoring, Treatment and Prediction of Bipolar Disorder Episodes

_MONARCA_

_V. Osmani, O. Mayora_

### eHealth Applications in Psychiatry, Occupational Therapy and Rehabilitation

Hypertext: Young Adult Implementation of Social Media to Communicate, Preserve and Project Self

_K.C. Holmes, G. Moroney, E. Holder_

Key Aspects, Efficacy and Best Practices for Online Suicide Intervention Training

_P. Quinnett, M. F. Davis_
