Message from the ISfTeH Executive Director Prof. Yunkap Kwankam

I have had the privilege of attending every Med-e-Tel since its inception in 2002, and I never cease to be amazed at how much I get out of my participation each year, in terms of the three main promises that the event offers – education, networking and business.

I am greatly encouraged that each year we get closer to the dream of “weaving eHealth into the fabric of the health system” in countries around the globe. For this and other reasons, Med-e-Tel remains, to my mind, a mainstay of our ISfTeH event calendar
